**7**

### 23. Aims of programme

The programme aims to produce graduates:

- Eligible to use this award as a prerequisite for entry into European or American Veterinary Specialty Colleges
- Eligible to apply for a residency / senior clinical training scholarship (MVetMed/Professional Doctorate or equivalent programme )
- with critical analysis skills and experience in literature review and interpreting clinical research
- with excellent communication and small group teaching skills, who are able to take advantage of current developments in information technology
- With excellent clinical, non-clinical and transferrable skills, including reflection and self-directed learning, and able to provide standard of care patients' and clients' management in primary practice

**24. Overall Programme Level Learning Outcomes - the programme offers opportunities for students to achieve and demonstrate the following learning outcomes. Learning outcomes should be specified for all intermediate awards as well as for the terminal award.**

#### Knowledge and understanding of:

- clinical disciplines to a level higher than an undergraduate
- pathophysiological principles related to the species and clinical context
- related clinical disciplines
- basic analysis of clinical or laboratory data
- ethical and welfare issues relating to clinical practice, teaching and research
- new developments in the relevant area of clinical expertise

Modules in which each learning outcome will be developed and assessed:

All modules will develop and assess the learning outcomes.
