Amendments	Microsoft Teams referenced, email usage advice updated
Re authorised By:	Information Security Group
Re authorisation Date:	June 2020
Policy Version	60
Date of review	October 2021

the creation, collection, storage, downloading or displaying of illegal, offensive, obscene, indecent or menacing images, data or material capable of being resolved into such
the downloading, copying and/or resale of copyrighted materials such as films, music, journal papers etc. in breach of the owner's license terms and the Copyright, Designs and Patent Act
processing personal data in a manner that does not comply with the RVC's Data Protection Policy and all current UK Data Protection legislation
conducting activity that will harass, defame, defraud, intimidate, impersonate or otherwise abuse another person

unencrypted emails, please refer to IT policies on Information Handling (IIP01002) and Encryption (IIP01003) for further information

Only use email signatures that are consistent with the current advice issued by RVC External Relations and also follow the Social Media guidance issued by the College. Abide by any departmental advice issued on appropriate Subject lines, message content etc which apply to the local operational circumstances, especially where communications with external parties are involved

Always consider other channels of communications such as the RVC Intranet, Team and signage systems before proposing 'mass emails' as often the content will not be applicable to many of the recipients with individual distribution lists used

If an organisation wide email is agreed for broadcast, the recipients/distribution group names should be included in the (hidden) : field rather than the : field, for both security and avoidance of accidental replies to all

When creating or requesting new group/team/distribution list names for communication and collaboration purposes, ensure that a similar designation does not already exist or will appear at all misleading or unprofessional

Remember the use of the College IT facilities and networks is restricted to bona fide purposes only, i.e. teaching, study, research, administration or related activities. When using these systems, you must abide by the Acceptable Use Policy.

74 Document Sharing Platforms

Documents must be shared via the RVC's OneDrive platform, rather than via third party platforms such as DropBox

75 Use of the Internet

The primary reason for the provision of Internet access is for the easy retrieval of information in relation to College activities. However, it is legitimate for users of IT services to make use of the Internet in its various forms in the same way as email above as long as it is not used to view or distribute improper material such as text, messages or images which are derogatory, defamatory or obscene. Inappropriate use of the Internet may be treated as misconduct under the appropriate disciplinary procedure. The College reserves the right to audit the use of the Internet from particular computers or accounts where it suspects misuse of the facility.

8 Personally Owned Devices

Personally owned devices must not be used to store or share RVC business information. Where it is necessary for staff to use personally owned devices for RVC work purposes, these must have up

9 Using Social Media

Uses of services external to the College such as Facebook/Twitter are expected to abide by the

Personal equipment connected to the RWC domain and network from halls of residence must comply with certain standards (100/100baseTX, 802.11n/a) and the only protocol family supported by IT Infrastructure Services is TCP/IP.

Users connected to the College domain from halls of residence must not:

- Run Peer-to-Peer applications that distribute copyright material**
- Attempt DDNS/dynamic Name Server Updates**
- Set up network file shares that are writable without a password**
- Redistribute access to others, nor any college resource made available to them**
- Configure any device attached to the domain with any IP address not specifically allocated to them**
- Connect any form of Wireless Access point to the domain, nor configure any computer with wireless capability such that the domain can be accessed wirelessly.**
- Download or distribute copyright material in breach of any licence conditions**

Neither are they permitted to run

- DHCP servers**
- email distribution lists**

IT Infrastructure Services reserves the right to actively scan for vulnerabilities or infections on connected systems and monitor the usage. This is in order to guarantee the integrity of the network service and user compliance with this service. In any case of misuse, IVC reserves the right to suspend students' use of the Hills of Residence connection and associated services if they contravene these regulations in any way.

The use of wireless based access points, routers or bridges, or the use of NAT based routing devices
